

SPECIFICATION

Rotary Roller for Delta Scraper USG-3 / UZG-4

The rotary roller is designed for use in delta scrapers models USG-3 and UZG-4. It ensures smooth operation, reduces friction, and increases the durability of the scraper mechanism. Manufactured from high-quality steel with strict quality control.

Parameter	Value
Product Type	Rotary Roller
Compatible Models	USG-3, UZG-4
Material	High-strength steel
Function	Rotation and load distribution
Condition	New
Production	Custom / Serial
Country of Origin	Ukraine
