

ModularT 70

Modern.
Modular.
Built to Perform.

ModularT 70 flooring for contemporary interiors

A stable modular flooring solution
designed to perform - beautifully
and reliably.

MODERN MODULAR FLOORING engineered for performance

ModularT 70 is a new generation modular LVT flooring collection engineered for stability, durability and reliable performance in high-traffic modern interiors. Designed to meet the demands of commercial environments, it combines refined aesthetics with high-performance technical construction.

SUSTAINABILITY

Designing healthier and responsible interior.

**PHthalate
FREE**

PHthalate FREE

We selected phthalate free plasticizers approved for food contact containers, which can also be used for toys intended to be placed in the mouth by children. This way, we offer our clients more comfortable, healthy and people-friendly indoor spaces, keeping high performance and design experience.

RENEWABLE ELECTRICITY

Acting on climate change is an imperative for all of us, and at Tarkett we're accelerating our efforts in the areas where we can make the biggest positive impact. We produce with 100% electricity from renewable resources. We focus relentlessly on adhering to the principles of a circular economy, continually working to reduce the impact of our products at every stage of their life cycle.

MODULART 70 BRINGS MEASURABLE IMPROVEMENTS IN TECHNICAL PERFORMANCE & LONG-TERM RELIABILITY:

- ▶ Enhanced dimensional stability
- ▶ Reinforced multilayer construction
- ▶ High wear layer for heavy commercial use
- ▶ Improved resistance to indentation and rolling loads
- ▶ Secure glue-down installation system
- ▶ Designed for high-traffic interiors

Built to handle real-world conditions - day after day.

CONTEMPORARY AESTHETICS

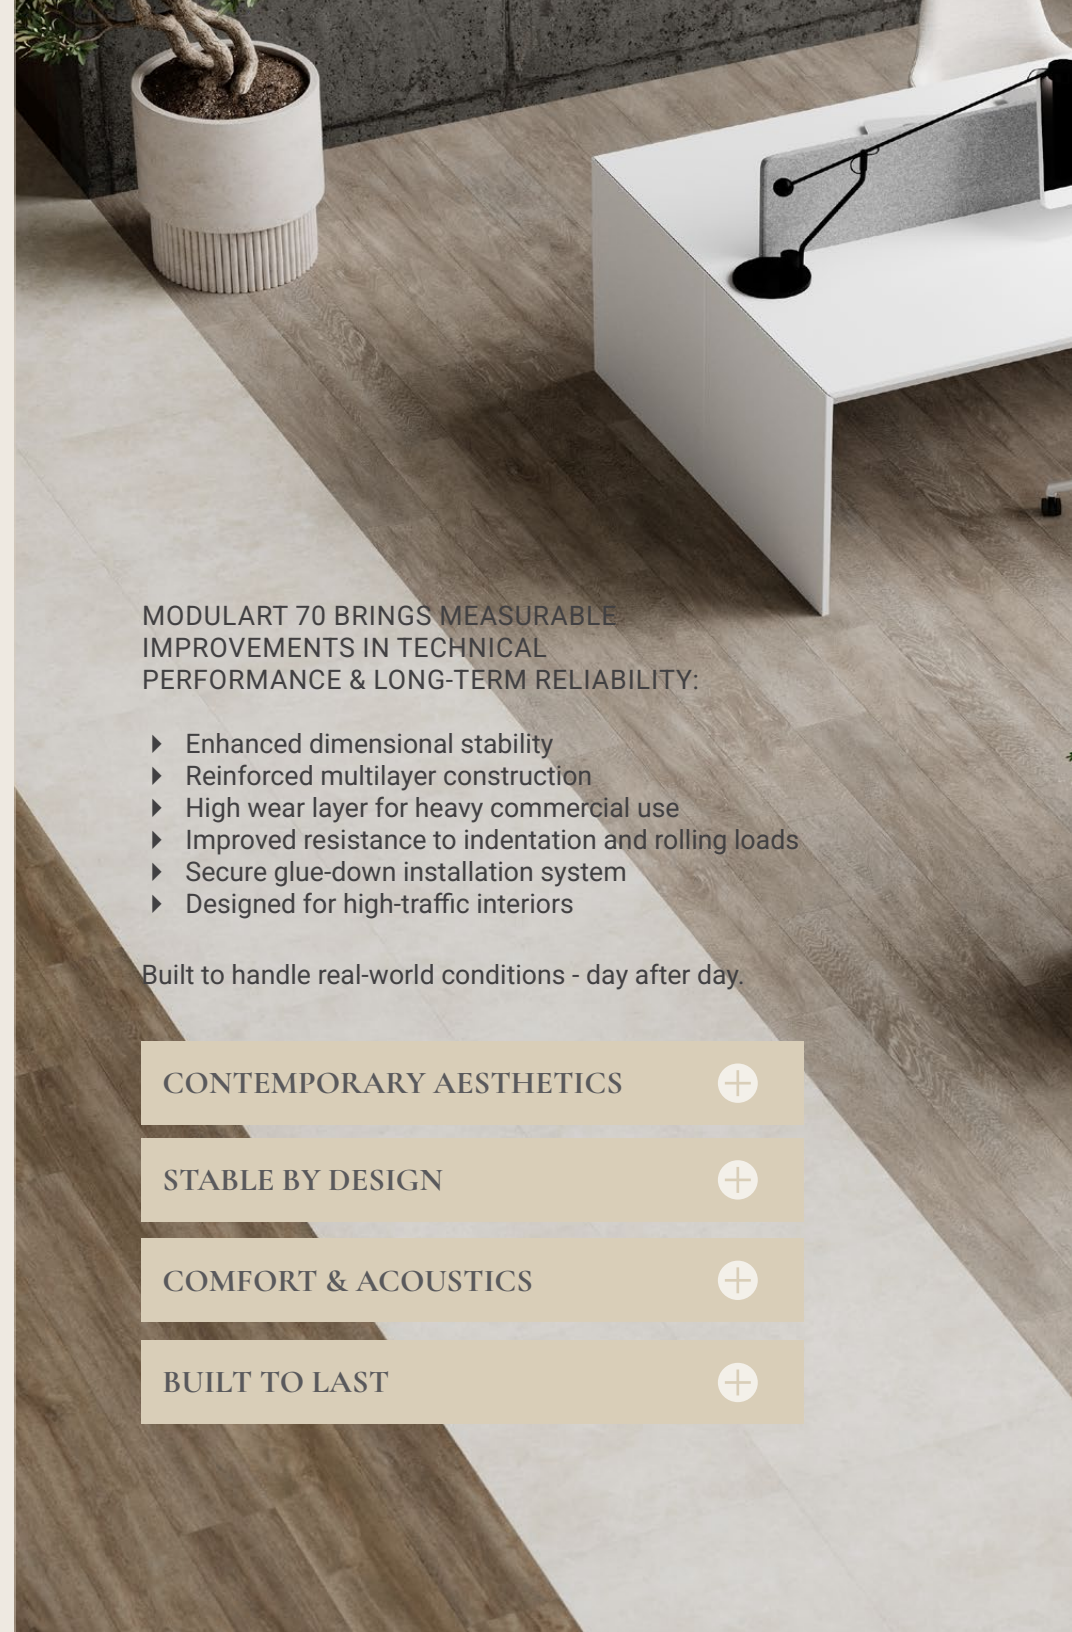

STABLE BY DESIGN

COMFORT & ACOUSTICS

BUILT TO LAST

CONTEMPORARY AESTHETICS

Inspired by natural wood and mineral materials, the collection features refined surfaces and balanced tones designed for modern interiors.

- ▶ Natural wood and stone inspirations
- ▶ Realistic textures and matte finishes
- ▶ Carefully balanced contemporary color palette
- ▶ Modular formats for creative layouts
- ▶ Seamless integration into diverse design concepts

Design freedom - without compromising performance.

STABLE BY DESIGN

The glue-down construction system ensures maximum dimensional stability and secure installation, even in demanding commercial settings.

- ▶ High structural stability
- ▶ Reliable adhesion to subfloor
- ▶ Minimal movement under load
- ▶ Excellent behavior in large surface areas
- ▶ Suitable for complex layouts and zoning

A flooring solution designed to stay exactly where it belongs.

COMFORT & ACOUSTICS

ModularT 70 enhances the everyday user experience through material comfort and acoustic performance.

- ▶ Warm and pleasant underfoot feeling
- ▶ Softer walking comfort compared to hard surfaces
- ▶ Reduced walking noise perception
- ▶ Compatible with underfloor heating (up to 27°C)
- ▶ Supports indoor comfort requirements

Comfort that supports performance environments.

BUILT TO LAST

Engineered for long service life, ModularT 70 is designed to withstand intensive daily use.

- ▶ Protective PU surface treatment
- ▶ High resistance to scratches and scuffs
- ▶ Stain-resistant surface
- ▶ Easy to clean and maintain
- ▶ Designed for heavy commercial traffic
- ▶ Long-term appearance retention

Durability that protects both design and investment.

ENGINEERED MULTILAYER CONSTRUCTION

Every ModularT 70 plank is built with a high-performance multilayer structure designed to deliver stability, durability and long-term reliability.

**Every layer has a purpose.
Together - they deliver performance.**

①

EXTREME PROTECTION

Advanced matte surface finish with outstanding resistance to scratches, scuffs and stains.

②

TRANSPARENT WEAR LAYER

0.7 mm high-performance commercial wear layer ensuring long-term durability in high-traffic areas.

③ ④

PRINTED COMPACT DESIGN LAYER

High-definition printed compact layer delivering authentic wood and stone designs, with excellent color stability and resistance to deformation.

⑤ ⑥ ⑦ ⑧

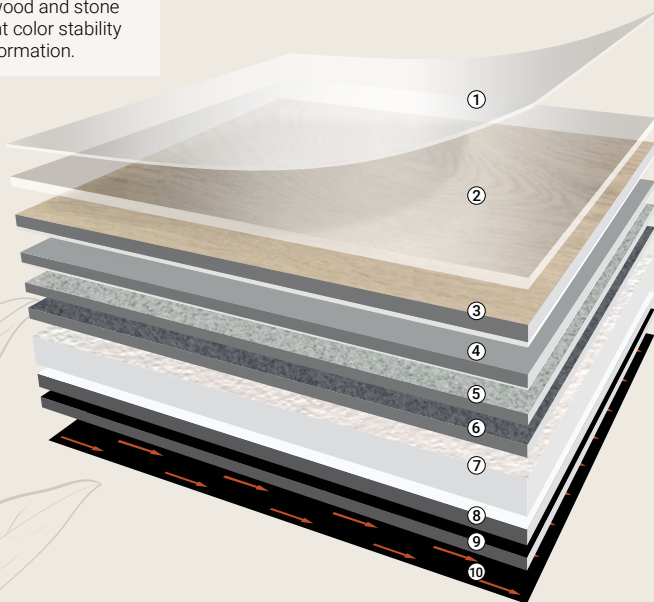

COMPACT REINFORCED ACOUSTIC CORE

Specially developed compact foam core providing excellent rigidity, dimensional stability and resistance to curling, while offering acoustic comfort up to 8 dB. Featuring dual reinforcement: a fiberglass fleece and a glass grid for enhanced strength and structural stability.

⑨ ⑩

BACK COMPACT LAYER

Stabilising backing layer ensuring overall rigidity and balanced construction, with printed directional guidance to support correct installation.

NATURAL INSPIRATION. MODULAR FREEDOM.

The ModularT 70 collection presents a balanced palette of contemporary wood and mineral designs, carefully developed for modern commercial interiors. Refined surface textures and coordinated tones allow designers to create cohesive spaces across different functional zones.

From warm natural woods to expressive concrete and subtle stucco looks, the collection offers the flexibility to support a wide range of architectural concepts.

Contemporary wood and material looks

- ▶ **Realistic surface textures**
- ▶ **Harmonized color palette**
- ▶ **Modular formats for creative layouts**
- ▶ **Designed for commercial environments**

DESIGN COLLECTION

Designed to mix, match and zone modern spaces.

*Natural variations in color and texture may occur between samples and installed flooring.

WOOD DESIGNS

Warm, natural wood interpretations bring comfort and visual softness to commercial interiors while maintaining the durability required for high-traffic spaces.

Designed for demanding interiors

ModularT 70 is suitable for a wide range of commercial and public environments.

- Office • Hospitality • Residential
- Retail • Educational

Modular flexibility

The modular format enables creative design solutions and efficient installation.

- ▶ Flexible layout options
- ▶ Easy replacement of individual elements
- ▶ Ideal for phased renovations
- ▶ Supports zoning and wayfinding concepts
- ▶ Compatible with mixed-format designs

PERFORMANCE YOU CAN RELY ON.

Design you can build on.

A modular LVT flooring solution engineered for stability, durability and contemporary interiors.

TECHNICAL DATA

CERTIFICATION AND CLASSIFICATION	STANDARD	ModularT 70	
Product type	EN ISO 10582	Heterogeneous poly(vinyl chloride) floor coverings	
CE certification	EN 14041		YES
Classification	EN ISO 10874		Residential: 23 Commercial: 34 Industrial: 43

TECHNICAL CHARACTERISTICS	STANDARD	ModularT 70	
Total thickness	EN ISO 24346		2,5 mm
Wear layer thickness	EN ISO 24340		0,7 mm
Bevelled edges			YES
Total weight	EN ISO 23997		3200 g/m ²
Binder content	EN ISO 10582		Type I
Form of delivery	ISO 24342 (EN 427)		Plank 20x120 cm, 18 planks/box=4,32m ² , 60 boxes/pallet Tiles 66,5x66,5 cm, 10 tiles/box=4,42m ² , 60 boxes/pallet Tile 50x100 cm, 8 tiles/box=4m ² , 70 boxes/pallet

TECHNICAL PERFORMANCES	STANDARD	ModularT 70	
Dimensional stability	EN ISO 23999		Average measured value $\leq 0,10$ %
Reaction to fire	EN 13501-1		Bfls1 on concrete substrate
Residual indentation	EN ISO 24343-1		$\leq 0,10$ mm
Furniture leg	EN ISO 16581		No damage
Castor chair	EN ISO 4918		No damage
Curl resultant to heat	EN ISO 23999		≤ 2 mm
Thermal resistance	EN ISO 10456		0,02 - 0,03 m ² K/W
Impact sound reduction - ΔL_w	EN ISO 717-2		$\Delta L_w = 8$ dB
Reduction of in-room impact noise	NF S 31-074		L n,e,w = 73 dB
Light fastness	EN ISO 105-B02		≥ 6
Slip resistance	EN 13893 DIN EN 16165 Annex B		$\mu \geq 0,3$ — Class DS R9/R10 depending on embossing type
Static Electrical Propensity	EN 1815		≤ 2 kV
Underfloor heating			Suitable (subfloor temperature maximum 27°C)

Floor covering must be installed in accordance with recommendation from producer.
