

Specification

Wheel Tube 16.5/70-18 for MZhT Tank Trailer

Product Name: Wheel Tube 16.5/70-18 for MZhT Tank Trailer

Purpose: Designed for installation inside pneumatic tires of agricultural tank trailers and manure spreader tanks (MZhT series). Ensures airtightness, reliable operation and resistance to agricultural operating conditions.

Main Characteristics:

- Tube size: 16.5/70-18
- Type: Inner tube with valve
- Application: Agricultural trailers, tank trailers, MZhT equipment
- Operating environment: Field and road use

Materials:

- High-quality elastic rubber compound
- Reinforced valve base area
- Wear-resistant construction for long service life

Advantages:

- Reliable air retention
- Resistance to deformation
- Good elasticity under load
- Suitable for intensive agricultural use
- Easy installation and replacement

Package Contents:

- Wheel tube 16.5/70-18 – 1 pc.

Storage Conditions:

Store in a dry, ventilated area away from direct sunlight, oils, fuels and aggressive chemicals.
