

SPECIFICATION

Product: Endless Belt ZPS-100 (Flat Belt)

Application: Grain thrower / grain loader ZPS-100

1. Product Description

Endless flat belt ZPS-100 is a replacement conveyor belt designed for grain loading equipment. It is used in grain throwers and grain loaders ZPS-100 for continuous transportation of grain and agricultural materials.

2. Main Characteristics

- Product type: endless flat conveyor belt
- Equipment: ZPS-100 grain thrower, ZPS-100 grain loader
- Purpose: transportation and loading of grain crops
- Construction: continuous closed belt design without joints
- Material: wear-resistant belt material suitable for agricultural operation
- Designed for reliable operation under regular mechanical loads

3. Advantages

- Ready for installation and operation
- Helps reduce equipment downtime
- Reliable performance during agricultural work
- Suitable as a replacement component for ZPS-100 equipment

4. Supply Information

The product can be supplied as a spare part for agricultural machinery.

Packaging and delivery are performed according to customer requirements.

Manufacturer / Supplier: Agricultural machinery spare parts supplier

Specification	Value
Product name	Endless Belt ZPS-100
Type	Flat conveyor belt
Equipment	Grain thrower / grain loader ZPS-100
Purpose	Grain transportation
