COMMERCIAL LOUDSPEAKERS T20IP

WATERPROOF, 8-OHM, 70V / 100V TRANSFORMER WITH POWER TAPS

The T20IP is a small, waterproof, built-in 70V / 100V line transformer designed to convert an 8-ohm loudspeaker to a 70- or 100-volt line loudspeaker for distributed applications.

Simply connect the T20IP transformer between the 70- or 100-volt amplifier and the low impedance loudspeaker.

KEY FEATURES

- Converts standard 8-ohm loudspeakers into 70- or 100-volt line speaker
 - Compact and waterproof
- Selectable power taps from 1.25W to 20W
 - 5-year warranty
