

## Product data sheet for uvex uniflex 7020N

The uvex uniflex 7020 in cotton interlock is very versatile and particularly suitable for oily and wet working environments. The protective glove's backing material ensures a comfortable fit and flexible movements. The nitrile rubber coating on the back of the glove also ensures good abrasion resistance under mechanical stress, for example during maintenance or machine work.

### Features

- Anatomical fit
- Good fit

### Suitability for industrial working environments

- Suitable for damp and oily work environments
