

JAX INC.

Material Safety Data Sheet

Section I. Chemical Product and Company Identification					
Product Name/ Trade Name	JAX HALO-GUARD FG-2 JAX HALO-GUARD FG-LT JAX HALO-GUARD FG-00		LG02; HLG02N; HLGLT; LGLTN; HLG00		
Supplier	JAX INC. W134 N5373 CAMPBELL DRIVE MENOMONEE FALLS, WI 53051 USA	North Ame	ontact C Emergency Telephone Numbers: erica 1-800-535-5053 nal 011-1-352-323-3500 (Collect)		
Synonym(s)	None				
Chemical Name	Lubricating grease	Non-Emergen	cy JAX: 262-781-8850		
Chemical Family	Hydrocarbon	Contact	JAX/FAX: 262-781-3906		
Chemical Formula	Mixture				
Material Uses	Lubricant				
Section II. Composition	on and Information on Ingredients				
	Name PEL/TI	V, Source	CAS # % by Weight		
PROPRIETARY FORMULA. Zinc oxide	5 mg/m³ (f	umes), OSHA	1314-13-2 <2.5		
LC_{50} , LD_{50} of Ingredients	Not available				
Section III. Hazards Id	entification				
Emergency Overview	Potential health risks vary from person to person. As a precaution, exposure minimized.	e to liquids, vapo	ors, mists or fumes should be		
Potential Health Effects:					
Eye Contact	May cause slight irritation and redness.				
Skin Contact	Prolonged or repeated skin contact may cause mild irritation.				
Ingestion	While this product has a low degree of toxicity, ingestion may cause irritation	n of the digestive	e tract.		
Inhalation	Not expected to present an inhalation exposure risk at ambient temperature mechanical means, vapors or mists may be produced which may cause irrit cause pulmonary edema or aspiration pneumonia.	•

		on (con						HAZARD F	ATINGS
HMIS Code	Health:	1	Fire:	1	Physical Hazard:	0	1	Minimal Hazard Slight Hazard Moderate Hazard	3 Serious Hazard 4 Severe Hazard
Section IV. First Aid N	leasures								
Eye Contact	Remove c	ontact lens	ses, if wear	ing, and fl	ush eyes with water. If irr	itation persists	, consult a	a physician.	
Skin Contact	Remove clothing and shoes, if contaminated. Wash skin with soap and water. Wash or clean contaminated clothing before reuse and discard oil-soaked shoes. If irritation persists, consult a physician. If high pressure forces the product under the skin, get immediate medical attention!								
Ingestion	If swallowed, DO NOT induce vomiting. As a precaution, give the person a glass of water to drink and seek medical attention. Never give anything by mouth to an unconscious person. Consult a physician.								
Inhalation	If exposed respiratory			of material	in the air, move the expo	osed person to	fresh air.	Seek medical att	ention if coughing or

Products of Combustion	Carbon m	onoxide, c	arbon diox	ide, oxides	s of nitrogen, smoke and	irritating vapor	s as prod	ucts of incomplete	e combustion.
Fire Fighting Media and Instructions	Dry chemical, alcohol foam, and carbon dioxide type extinguishing agents may all be suitable for extinguishing fires involving this type of product, depending on the size or potential size of fire and circumstances related to the situation. Plan fire protection and response strategy through consultation with local fire protection authorities or appropriate specialists. The following procedures for this type of product are based on the recommendations in the National Fire Protection Association's Fire Protection Guide on Hazardous Materials. Use water to keep fire-exposed containers cool. If a leak or spill has not ignited, use water spray to disperse the vapors and to provide protection for men attempting to stop a leak. Water spray may be used to flush spills away from explosives. Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined spaces or as otherwise needed.								
Special Remarks - Fire and Explosion Hazards	self-contai	ned breath	ning appara	atus. Leaks	ter any enclosed or confii s/ruptures in high-pressui rces (open flame, pilot lig	re systems usi	ng materia	als of this type ca	
Section VI. Accidental	Release	Measur	res						
Release or Spill	Remove sources of ignition. Recover free product. Add sand, earth, or other suitable absorbent material to the spill area. Minimize breathing vapors. Minimize skin contact. Open all windows and doors. Keep product out of sewers and watercourses by diking or impounding. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.								
Environmental Impact					te authorities. U.S Coast mittent dry creeks. Repor

to Avoid

Section VIII. Exposure	e Controls and Personal Protection
Respiratory Protection	Use respiratory protection if needed to keep airborne levels below recommended oil mist exposure limits.
Ventilation	Use in a well-ventilated area. See Engineering Controls.
Protective Gloves	Wear lined non-permeable rubber gloves.
Eye Protection	Chemical splash goggles or face shield in compliance with OSHA regulations are advised when eye contact may occur.
Personal Hygiene	Wash skin thoroughly after contact, before breaks and meals and at end of work period. Product is readily removed from skin by waterless hand cleaners followed by washing thoroughly with soap and water.
Engineering Controls	If user operations generate an oil mist, use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below the recommended oil mist exposure limits.
Exposure Limit	5 mg/m ³ (oil mist) OSHA, for total product; see Section II for component exposure limit(s).

Section IX. Physical and Chemical Properties Appearance/Odor Cream-colored semi-solid with mild petroleum Vapor Pressure 0.00 mm Hg @ 20°C odor Vapor Density Not available **Percent Volatile** 0 **Odor Threshold** Not available **Evaporation Rate** Not available **Specific Gravity** Not available Not available 0.95 - 1.05 g/cm3 @ 20°C Viscosity Density Not available Solubility in Water Negligible **Molecular Weight**

Distribution **Boiling Point** Not available Semi-solid **Physical State** Freezing/Melting Point Not available Section X. Stability and Reactivity Data Stable under normal temperatures and pressures. Stability Not available **Conditions of Instability Conditions of Reactivity** Not available **Conditions and Materials** Avoid heat, open flames, strong acids, strong bases, and oxidizing materials.

Coefficient of Water/Oil

Not available

Hazardous PolymerizationHazardous polymerization will not occur.Hazardous DecompositionCarbon monoxide, carbon dioxide, oxides of nitrogen, smoke and irritating vapors as products of incomplete combustion.Products

Section XI. Toxicological Information

Not available

••••••••••••••••••••••••••••••••••••••	
Routes of Entry	Dermal contact, eye contact, inhalation, ingestion.
Toxicity to Animals	Not available
Effects of Acute Exposure	Not available
Acute Effects of Sensitization	Not available
Ingestion	Not available
Inhalation	Not available
Toxically Synergistic Products	Not available
Chronic Effects on Humans	5:
Carcinogenic Effects	This product does not contain a carcinogen or potential carcinogen as listed by NTP, IARC, or OSHA [29 CFR 1910.1200(D)#4].
Mutagenic Effects	No data available to indicate any components present at greater than 0.1% may present a mutagenic hazard.

JAX HALO-GUARD FG-2 JAX HALO-GUARD FG-LT JAX HALO-GUARD FG-00	PAGE 4 C			
	ical Information (cont'd)			
Teratogenic Effects	No data available to indicate any components present at greater than 0.1% may present a teratogenic hazard.			
·				
Reproductive Effects	No data available to indicate any components present at greater than 0.1% may present a reproductive hazard.			
Section XII. Ecologica	Il Information			
Ecotoxicity	There is no data available on the adverse effects of this material on the environment.			
Section XIII. Disposal	Considerations			
Waste Disposal	Consult federal, state or local authorities for proper disposal and reporting procedures. All disposals must comply with federal, state and local regulations.			
Section XIV. Transpor	rtation Information			
U.S. D.O.T.				
Shipping Name:	None UN Number: None			
Hazard Class:	None Packing Group: None			
Remarks:	Not regulated for land transport.			
Section XV. Regulator	ry Information			
U.S. Federal Regulations:	ymomaton			
CERCLA	Release of the following chemical(s) at quantities equal to or greater than the reportable quantities (RQ), is regulated by 40 CFR 302.4 :			
	None			
SARA (Section 313)	This product contains the following chemical(s) listed in Section 313 at or above the de minimis concentrations: Zinc oxide, CAS # 1314-13-2, present at <2.5%			
SARA Extremely Hazardous List	This product contains greater than 1.0% of the following chemical(s) on the SARA Extremely Hazardous Substances List: None			
TSCA Inventory	All components of this material are on the U.S. TSCA Inventory.			
California Prop. 65	This product contains the following chemical(s) known to the State of California to cause birth defects or other reproductive harm:			
	None			
International Regulations:				
Canada	All components are in compliance with the Canadian Environmental Protection Act. This product has been classified in accordance with the hazard criteria of the CPR and this MSDS contains all the information required by CPR.
