Prima di usare il prodotto leggere attentamente le istruzioni contenute nel presente libretto. Vortice non potrà essere ritenuta responsabile per eventuali danni a persone o cose causati dal mancato rispetto delle indicazioni di seguito elencate, la cui osservanza assicurerà invece la durata e l'affidabilità, elettrica e meccanica, dell'apparecchio. Conservare sempre questo libretto d'istruzioni.

Read the instructions contained in this booklet carefully before using the appliance. Vortice cannot assume any responsibility for damage to property or personal injury resulting from failure to abide by the instructions given in this booklet. Following these instructions will ensure a long service life and overall electrical and mechanical reliability. Keep this instruction booklet in a safe place.

Avant d'utiliser le produit, lire attentivement les instructions contenues dans cette notice. La société Vortice ne pourra être tenue pour responsable des dommages éventuels causés aux personnes ou aux choses par suite du non-respect des instructions ci-dessous. Le respect de toutes les indications reportées dans ce livret garantira une longue durée de vie ainsi que la fiabilité électrique et mécanique de l'appareil. Conserver toujours ce livret d'instructions.

Vor Installation und Anschluss dieses Produkts müssen die vorliegenden Anleitungen aufmerksam durchgelesen werden. Vortice kann nicht für Personen- oder Sachschäden zur Verantwortung gezogen werden, die auf eine Nichtbeachtung der Hinweise in dieser Betriebsanleitung zurückzuführen sind. Befolgen Sie alle Anweisungen, um eine lange Lebensdauer sowie die elektrische und mechanische Zuverlässigkeit des Geräts zu gewährleisten. Diese Betriebsanleitung ist gut aufzubewahren.

Description and use

The product you have purchased is a ceiling agitator/fan, IPX5 (fig.1).

Warning:
this symbol indicates that care must be taken to avoid injury to the user

- Do not use this product for functions other than those described in the instruction booklet.
- After having removed the product from its packing, ensure that it is complete and undamaged: if in doubt contact Vortice Service Centre.
- Do not leave packaging within the reach of children or differently able persons.
- Certain fundamental rules must be observed when using any electrical appliance:
 - Never touch appliances with wet or damp hands
 - Never touch appliances while barefoot
- If using this appliance where there are children, supervision by an adult is necessary; this appliance must not be used, without assistance, by children or persons whose physical, sensory or mental capacities prevent them from applying the necessary safety precautions.
- Do not use the appliance where flammable vapours are present (spirit, insecticides, petrol, etc.).
- The lower section of the blade should raise from the floor (Fig.2) by at least 2.30 metres, in accordance with the provisions of the current laws in force.
- Unauthorised changes to the factory set fittings shall invalidate the guarantee and entitle the manufacturer to disclaim any whatsoever liability.

Caution:
this symbol indicates that care must be taken to avoid damaging the appliance

- Do not make modifications of any kind to this appliance.
- The appliance must not be exposed to atmospheric conditions (rain, sun, etc.).
- The appliance must be installed by a professionally qualified person.
- Regularly inspect the appliance for visible defects. If any faults are found, do not operate the appliance but contact Vortice Service Centre.
- The electrical mains to which the unit is connected must conform to current standard.
- The appliance must be properly connected to an electrical system in compliance with the applicable regulations and equipped with an efficient earthing system. If in doubt, have a qualified electrician perform a thorough check.
- The electrical power source to which the product is to be connected must be able to provide the maximum amount of electrical power required by the product. If it cannot do this, contact an electrician for appropriate remedial action.
- Use a multi-polar switch with minimum contact gaps of 3 mm when installing the appliance.

- Should the appliance be dropped or suffer a heavy blow, have it checked immediately by Vortice.
- If the appliance does not function correctly or develops a fault, turn it off and contact Vortice immediately. Ensure that only genuine original Vortice spares are used for any repairs.
- Do not leave the appliance on unnecessarily: when the appliance is not in use, turn the switch to off.
- Use the unit at an ambient temperature not above 40°C (104°F).
- Place the unit at a suitable distance from walls, objects, etc.
- Specifications for the power supply must correspond to the electrical data on data plate A (fig.3).

Installation

Figures: 4 - 19.

1. Check that the intended ceiling is structurally suited to support the weight of the product.
2. Pay attention that the anchoring devices do not jeopardize the structural strength of the intended ceiling.
3. Use correctly tightened anchoring devices suited to the weight of the product and to the type of the ceiling.

Fig.12a: component not present on all models.

Cleaning

Before cleaning the unit or carrying out maintenance operations turn the main switch off and remove the plug from the power supply.

Electrical Connections

Figure 20.

ENGLISH

Important information on eco-compatible disposal

IN CERTAIN EUROPEAN UNION COUNTRIES THIS PRODUCT DOES NOT FALL WITHIN THE REQUIREMENTS OF THE NATIONAL LAWS IMPLEMENTING DIRECTIVE WEEE, AND IN THESE COUNTRIES THE PRODUCT IS NOT SUBJECT TO SEPARATE DISPOSAL OPERATIONS AT THE END OF ITS WORKING LIFE.

This product conforms to EU Directive 2002/96/EC.

This appliance bears the symbol of the barred waste bin. This indicates that, at the end of its useful life, it must not be disposed of as domestic waste, but must be taken to a collection centre for waste electrical and electronic equipment, or returned to a retailer on purchase of a replacement.

It is the user's responsibility to dispose of this appliance through the appropriate channels at the end of its useful life. Failure to do so may incur the penalties established by laws governing waste disposal.

Proper differential collection, and the subsequent recycling, processing and environmentally compatible disposal of waste equipment avoids unnecessary damage to the environment and possible related health risks, and also promotes recycling of the materials used in the appliance.

For further information on waste collection and disposal, contact your local waste disposal service, or the shop from which you purchased the appliance.

Manufacturers and importers fulfil their responsibilities for recycling, processing and environmentally compatible disposal either directly or by participating in collective systems.
